## Notes and features

- The Alliance Agriflex 354 is a row crop tyre with VF technology for tractors, self-propelled and towed field sprayers.
- As a VF tyre, it has 40% more load capacity at the same inflation pressure or the same load capacity at 40% lower inflation pressure compared with a standard tyre.
- This leads to optimal crop and soil protection.
- The tyre provides high traction and excellent self-cleaning properties thanks to the stronger and optimally shaped lugs.
- Its large contact area and steel belted construction also ensure traction and good ground pressure distribution.
- The tyre is characterised by durability, reduced fuel costs and ride comfort.
